ORDER NUMBER - This field to be used for future functionality

ASSET TYPE - Identifies whether a placeholder is for an audio, video, image, document or session file

SEASON - Allows for filtering by TV season. No options are present for feature film placeholders

TITLE - Allows for filtering by TV series or feature title

CONTENT - Identifies what kind of content the asset contains. For example, if the Asset Type is Pro Tools, the Content value will identify whether it is "Music & Effect" or a "Composite mix"

LANGUAGE - Identifies the language of the asset assigned to a placeholder

ALPHA NAME - The alpha name of an asset assigned to a placeholder (e.g., Airline, TV_Dom)

STATUS - The status of the placeholder as related to an asset being uploaded against it.

TRACK CONFIGURATION - Lorem istum

TASK TYPE - Allows for filtering placeholders that are ready for upload or for QC.
