FILTER DRAWER VISIBILITY - Allows user to display or collapse the filter drawer.

FILTER DRAWER - Allows user to filter which types of Placeholders are returned in the Results pane

SHOW COMPLETED - Set to display/not display placeholders that have been completed

The screenshot shows the 'Asset Dashboard' interface. At the top, there are navigation tabs for 'Dashboard' and 'Activity'. Below the tabs, the dashboard title 'Asset Dashboard' is followed by '305 Assets'. A filter drawer is visible on the left, containing various filter categories like Order Number, Asset Type, Season, Title, Content (set to 'Process'), Language, Alpha Name, Status, Track Configuration, and Task Type. At the bottom of the filter drawer is a 'Show Completed' toggle switch. The main area of the dashboard is a table with columns: Title, Alpha, Asset, Asset Type, Format, Language, and Content. The table lists various assets such as 'SPIDER-MAN: ACROSS THE SPIDER-VERSE', 'WOLF'S RAIN: SEASON 01: EP# 0101 - CITY OF HOWLS', and 'HOT L BALTIMORE'. A red box highlights the table area, and a callout points to it.
